

生命的種子

生命的種子，埋在土里
束縛的繭殼里，爆裂出來
拚命往上爬，伸出脖子
生命成長中，付出代價
惡劣環境里，掙扎求存
狂風暴雨中，不曾倒下
看到啊看到，生命的真諦
體悟了體悟，永生的真理
夜雨歌頌，新生的降臨
晨風低吟，幼苗終長成

The seed of life

The seed of life buried within the earth
Bindings of the hard shell, had cracked open
Scaling up with utmost efforts, thrusting out new shoots
The start of a new life, require the payment of a price
In an environment of adversity, it struggles to seek a living
In forceful winds and rainstorm, it did not tumble down
See and perceive, the true significance of life
Understand and realize, the truth of eternal life
The night shower sings happily, of the coming of a new life
The morning breeze blows gently, the new buds had grown
